

ENTERPRISE SSL TECHNICAL INFORMATION

Microsoft IAS Support

GeoTrust now supports the generation of certificates from devices/appliances that do not generate CSR's (Certificate Signing Requests) such as Microsoft's IAS Server. You can generate certificates for both IAS and Web Servers from the same Enterprise SSL Account. As long as the device, platform or appliance can import a standard PKCS12 file you can use this feature to generate the CSR and import subsequent signed certificate.

Web Server Support (Tested)

Apache + ApacheSSL
Apache + MODSSL
Apache + Open
Apache + Raven
Apache + SSLey
Apache 2
C2Net Stronghold
Cobalt Series
CPANEL
Ensim
